## About Us

Andrew Teekens, Managing Director of APT Brick and Block, has been working within the Melbourne area for 35 years. He originally started working in bricklaying, then moved into the highly specialised area of glass brick laying. It was through this type of work that Andrew discovered his passion for detailed, high quality, precision work.

Over the last 6 years APT Brick and Block has undertaken a greater level of commercial work, with high quality requirements and the necessity to stick 100% to deadlines; an area they pride themselves in.

Andrew and his team are sought after for their eye for detail and willingness to take on difficult jobs and sites. APT Brick and Block laying works with prestige builders, architect design and heritage listed buildings.

# OUR SERVICES

**Bricklaying:** we take many different factors into consideration when approaching a new project, including style, the surrounding area, the environment.

**Blocklaying:** we know that not all brick layers are experienced in the art of precision block laying. We understand that this type of work takes particular skill to get precision results.

**Stonework:** we offer a wide range of stonework services. Structural stonework as either a feature or specific project is a stunning addition to any home or commercial building.

**Restoration:** we specialise in restoring brick, block and stonework so you can enjoy the character of older brickwork, without worrying about structural issues.

# TESTIMONIALS

*"As Building contractors constructing architectural designed executive homes and town houses, Andy is our preferred bricklaying contractor. Our clients demand the highest standard from our teams and having a bricklayer with a wide variety of experience is vital to the flow of the project. We find Andy and his team easy to work with, competitive on price and reliable. Often working closely with us to accommodate unexpected changes in the program. They are fully equipped and compliant with all current work regulations."*  
(Leigh Minehan, Director, Leema Pty Ltd)

*"When we first approached Andy at APT Brick and Block, he was one of the only bricklayers that was able to accommodate our tight timelines. Since that time we have used APT on three other projects. Andy is a great communicator. He keeps us up-to-date on how projects are running and completes his work on time. Andy is also reliable; if he says he'll be at a site, he will be. Andy and his team take pride in their workmanship and they deliver quality results. I would not hesitate to recommend Andy and the APT team to other construction firms."* (Cambell McLennan, Director, MCL Constructions)

*"Andy and his APT crew recently did some work for our construction company and I could not be happier with the service and outcome of the job. His team are very knowledgeable and professional and they were happy to give us advise on our project where appropriate. I especially liked that he works in small teams with dedicated contact people on site so I always knew who to approach when I had questions."*  
(Tom Rockland, Rockland Construction)
